

Protecting You

CAT III CE 0598

FLOCK-LINED

The Chemiglove by On Site Safety is a well designed, comfortable fitting nitrile chemical resistant glove. It is flock-lined for ease of donning on/off gloves.

Longer wear and better protection than natural rubber gloves

The EN388 Level 4 Abrasion Resistance rating helps you manage your running costs by reducing the frequency of changing gloves due to wear and tear. The 15mil glove thickness is robust and resistance to a wide range of chemicals including strong detergents, greases, oils and most solvents.

The Chemiglove has been tested and accredited with EN374-5:2016 Type A for J K L N O T chemical classes:

Code Letter	Chemical	CAS	Class
J	n-Heptane	142-82-5	Saturated hydrocarbon
K	Sodium Hydroxide 40%	1310-73-2	Inorganic base
L	Sulfuric acid 96%	7664-93-9	Inorganic mineral acid, oxidizing
N	Acetic acid 99%	64-19-7	Organic acid
O	Ammonium hydroxide 25%	1336-21-6	Organic base
T	Formaldehyde 37%	50-00-0	Aldehyde

As a Type A, the Chemiglove exceeds the permeation breakthrough of that chemical of at least 30 minutes.

The patterned palm ensures a good grip in both wet and dry conditions. It is 33cm in length making it ideal to use in most industrial and domestic applications.

The Chemiglove is anatomically shaped ensuring comfort and reducing hand fatigue.

Each pair is individually packed. There are 12 pairs per inner bundle and 144 pairs to the carton.

IDEAL FOR:

- Chemical handling
- Oil refining
- Agriculture
- Print works
- Automotive
- Cleaning

ORDER CODE	SIZE
G1533NFS	7 / Small
G1533NFM	8 / Medium
G1533NFL	9 / Large
G1533NFXL	10 / XL
G1533NFXXL	11 / 2XL

Note:

Size XXL is printed with the former testing results:

EN388: 4101 and EN374: AJKL with the CE marking 0120.

No change in the glove manufacturing other than changes to the glove standard.
