

HAMMER-HEAD HARD HATS

Vented

Non Vented

We have a complete range of hard hats including Type 1 and Type 2 High Temperature hard hats.

Choose from a vented or non vented in the HammerHead range or if you prefer, an all in one design - Slider, which comes with a click slider that you can change from a vented to a non vented hard hat.

All hard hats / helmets are certified by SAI Global to AS/NZS 1801.

A full range of accessories are available to ensure you are protected.

All helmets come pre-assembled with a 6 point harness for equalised weight distribution. The Pin Lock harness can be changed to the optional ratchet/push turn locking harness.

The alignment pad ensure the 6 point harness is in the right position.

The sweatband is removable and can be replaced.

All hard hats come with the 30mm slot to fit all major brands of cap attached earmuffs.

A full range of colours is readily available including the neon colours and hot pink.

FEATURES:

- 6 Point Harness
- Pin Lock or Ratchet Lock
- Alignment Plate
- Vented or Non Vented
- Sweat Band
- 30mm slot to fit all major brands of cap attached ear muffs

PINK HARD HATS

Add some colour to your workforce with the great looking hot pink hard hat.

The Pink HammerHead hard hat is certified to AS/NZS1801 as a type 1 industrial helmet.

Product Code: HM1ATP - Pink

PURPLE HARD HATS

Now available in Purple. Stans out and wear purple to support your cause. The Purple HammerHead hard hat is certified to AS/NZS1801 as a type 1 industrial helmet.

Product Code: HM1ATPU - Purple

GREY AND BLACK HARD HATS

We have added more choice in helmet colours. Black and grey have been added to the Hammerhead range.

The Black and Grey HammerHead hard hat is certified to AS/NZS1801 as a type 1 industrial helmet.

Product Code: HM1ATB - Black

Product Code: HM1ATG - Grey

SLIDER

The Type 1 Slider Hard Hat comes with an inbuilt click slider to allow you to change from a vented to a non vented hard hat.

It is easy to adjust and saves you buying two separate hard hats. The HM6 Slider has five vent holes on each side of the helmet. Push the slide forward to open the vents.

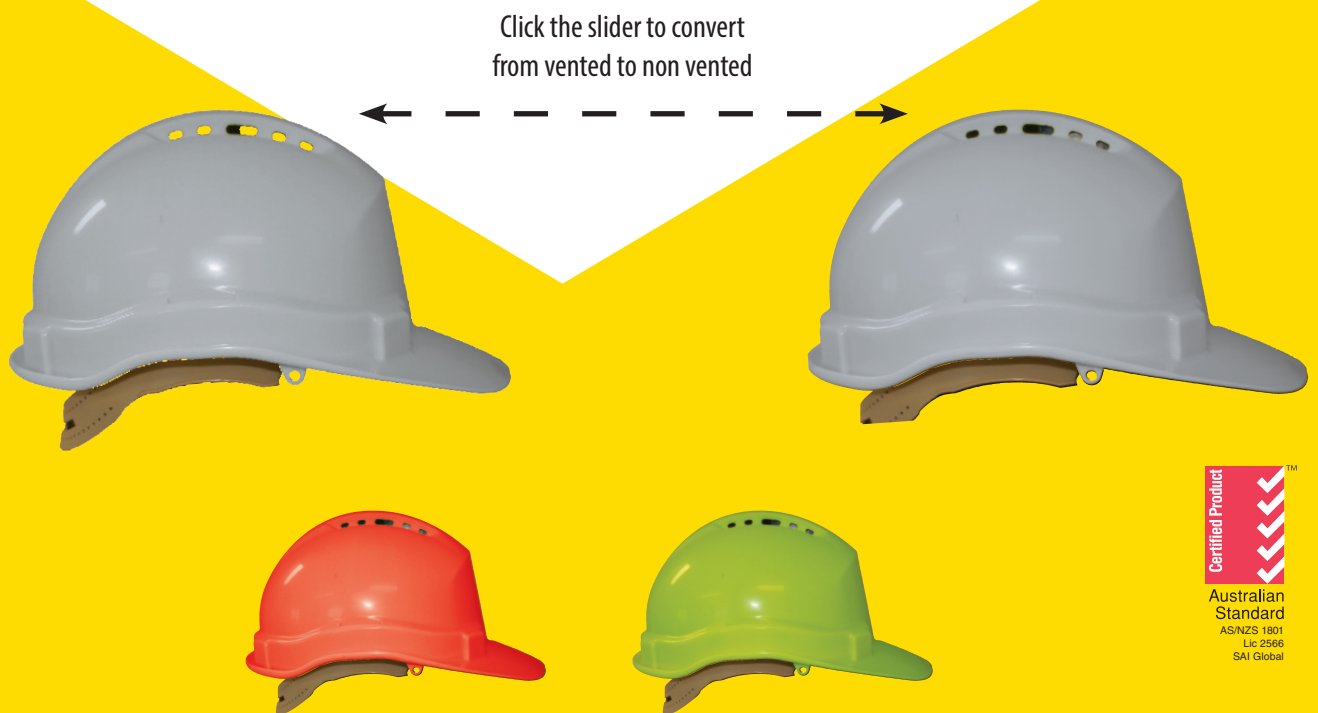

All hard hats / helmets are certified by SAI Global to AS/NZS 1801.

All helmets come pre-assembled with a 6 point harness for equalised weight distribution. The Pin Lock harness can be changed to the optional ratchet/push turn locking harness.

The alignment pad ensure the 6 point harness is in the right position.

The sweatband is removable and can be replaced.

All hard hats come with the 30mm slot to fit all major brands of cap attached earmuffs.

STINGRAY

The Stingray wide brim helmet is a modern and stylish wide brim hard hat. The waved contoured brim adds flare to a wide brim helmet.

The helmet is certified by SAI Global to AS/NZS1801 as a Type 1 Occupational Protective Helmet.

It features 10 ventilation holes together with replaceable cotton sweatbands. The easy to use pin lock harness makes the Stingray helmet comfortable and lightweight.

The wide brim provides excellent protection from the sun and rain.

The Stingray design incorporates built in elastic strap holders. This easily allows for cap lamps to be attached to the helmet by hooking the straps into place.

Secure the Stingray with a 4 anchor point chin strap. The nylon webbing harness has an adjustable length.

Available in White, Pink and Yellow.

Designed in Australia, the Stingray helmet carries an Australian Patent and Design protection.

HM26 Rebel helmet mounted earmuffs

The HM26 Rebel helmet mounted earmuffs provides $SLC_{80} = 26dB$, Class 5 protection.

Built with no metal parts, the HM26 Rebel dielectric earmuff is your ideal cap attached earmuff in just about any work environment.

The arm bar can be push outwards when not in use and can also swivel allowing you to rest the earmuffs on the back of your helmet. The wishing bone arm bar design enables the muffs to pivot on the horizontal axis to find that perfect fit.

With a low clamping force, coupled with the softness of the foam padding, the HM26 Rebel is a comfortable wearing cap attached earmuff.

Certified by SAI Global, the HM26 Rebel comes standard with a 30mm slot. An optional 25mm slot adaptor is available. The push clip system makes it easy to change slots.

- $SLC_{80} = 26dB$ protection
- Class 5
- Comfort plus earmuffs
- Low clamping force
- 30mm slots
- Optional 25mm slot available

CLASS 5 RATING
 $SLC_{80} = 26dB$

HARD HATS - ACCESSORIES

Reflective Stickers

The HammerHead Reflective stickers are pre-cut to fit on the HammerHead range of helmets. The stickers comes as a set of three with two curve and one straight.

When the stickers are applied as shown, your helmet has a full 360° exposure making the helmet ideal for use in night conditions or low light conditions.

These stickers have 700 CIL when measured at an observation angle of 0.2° and an entrance angle of 4.0°, exceeding the requirements of AS/NZS1801 for retroreflective material.

CODE	DESCRIPTION
HMRS	Reflective stickers set of 3

Insect Nets

Wear it comfortably over your head, helmet or hat.

The full generous size fits comfortably over your head, helmet or cap.

The ultra fine mesh made from 100% black polyester fibre allows clearer visibility.

The elastic neck ensures you get a good fit each time.

HARD HATS - ACCESSORIES

Helmet Sun Brims

The sun brims are an ideal solution for protection from the sun when wearing hard hats.

Choose from a cloth lined brim or a plastic brim which provides excellent protection in wet weather.

The generous neck flap provides sun protection on the neck. Designed in Australia to suit most hard hats.

COLOUR	CLOTH LINED BRIM	PLASTIC BRIM
Blue	SB1280BL	SB1367BL
Green	SB1280GR	SB1367GR
Orange	SB1280NO	SB1367NO
White	SB1280W	SB1367W

Foldaway Helmet Sun Brims

The compact fold up brim allows for ease of storage and transport.

It is available in a variety of colours including Blue, Neon Orange, Neon yellow and camouflage.

It comes with hook and loop fasteners, allowing you to security the sun brim through the earmuff slots on most hard hats.

The easy to assemble slips on the front and back of the brims makes it quick and easy to install on most hard hats.

The one piece light weight neck shape covers your entire neck from ear to ear.

The foldaway sunbrims collapses into the included compact carry pouch.

HARD HATS - ACCESSORIES

Widebrim Helmet Sun Brims

The Oz Sun brims can now fit over a wide brim miners helmet that have a full brim throughout the helmet.

It is available in a Blue and Neon Orange.

The brims are made using a durable plastic brim and comes with the front and back underside sleeves for quick and easy don/off on most brands of miners full brim helmets.

The dual scoops neck flaps allows air flow throughout the neck, reducing trapped warm air under the brim and helmet.

PRODUCT CODE	COLOUR
SB1367WBBL	Blue
SB1367WBNO	Neon Orange

Helmet Sun Brims with earmuff slots

Foldable for easy storage

The earmuff brim provides sun protection whilst wearing cap attached earmuffs with your hard hat.

Designed in Australia, the earmuff brim includes pockets on the underside, allowing the helmet peak and back of helmet to be easily slipped in. The hook and loop closures securing the front and back brims together enable you to adjust the overall circumference to suit your helmet and wearing position.

Using a wide 10cm brim, together with a generous length neck flap, provide awesome sun protection. The pre-sewn legionnaire flaps are incorporated into the brim, enhancing all round protection.

The earmuff slots have a removable flap, allowing the holes to be covered when not required. It is held in place with hook and loop closures, enabling you to easily manoeuvre the earmuffs when not in use.

CODE	DESCRIPTION	COLOUR
SB2116NO	Helmet sun brim with earmuff slots	Neon orange brim with yellow neck flap

Helmet Tethers

Secure your helmet to your shirt with the durable clamps. Together with an elasticised strap, it is tested to withstand 0.9kg. The helmet tether comply with ANSI/ISEA 121-2018 standards.

Custom Logo Printing

Take advantage of our new inhouse pad printing machine by providing your logo in AI or EPS formats with Pantone colour codes.

Customise the HammerHead or Slider helmets with logo printing.

We can print logos up to 4 colours with small quantity runs.

Choose printing on the front, left, back or right panels.

We generally print and dispatch within 5 work days.

Provide your logo in vector AI (CS6 or earlier) together with your Pantone PMS colour codes. We will provide you with a digital proof prior to printing for your approval..
