

Protecting You

M10 TORQUE

Class 5 $SLC_{80} = 28 \text{ dB}$

The M10 Torque ear muff is the latest in hearing protection by On Site Safety. The M10 Torque is certified by SAI Global to AS/NZS 1270.

With an impressive $SLC_{80} = 28\text{dB}$ rating, this Class 5 ear muff is great for noisy environments up to 110dB(A).

Constructed with bright neon yellow cups, the M10 Torque is your ideal work partner for improved day visibility.

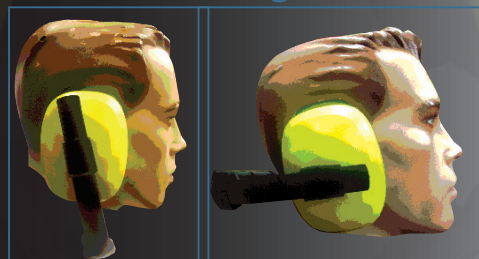

The M10 Torque has a low clamping force of 11.0N. Coupled with the softness of the cup cushions, and weighing only 267 grams, the M10 Torque is a comfortable wearing ear muff.

The swivel head band and adjustable cup slider allows the earmuff to be worn in a variety of positions, including having the band below the chin, overhead or behind your neck.
